Bracket short SFF 2pc kit

\$4.99

Convert your ATX compatible standard height graphics card into the low profile, micro ATX form factor standard by purchasing this 2-pc kit. Compatible with select model Visiontek graphics cards. Requires open case slot adjacent to card (will occupy 2 case slots).

This adapter kit transforms the video card from "tall" standard bracket height to "short" micro ATX standard.

Requirements: Requires a graphics card with a low profile, short height PCB.
